“ Chester has always treated me like a son. He would do anything for me and I would do anything to have my friend back. I told him one day I was looking for a shop to do DIY automotive work here and there. He gave me one of his shops to work in and helped me many times down there. I wanted to learn how to do more woodworking so I needed a table for the utility room. He and I worked on it together and it was awesome. In retrospect I wish I had visited more often. A man who could do a lot and he took me in and I will always respect him for that. If you knew him you were honored to me one of the good ones. Love you Chester and will miss you daily.
