“ *Tony had quite the impression on us young engineers at Bellefonte. Not only did he teach, mentor, encourage us through engineering challenges, but he also displayed a very unique characteristic as a manager. He genuinely cared about each one of us, beyond just being an engineer, and never hesitated to display it. If he was that impactful to us in just four short years, I can only imagine how many memories he created with everyone who had the privilege of knowing him for a lifetime. Thank you, Tony, for your inspiration, sharing your stories, and giving us everlasting memories that we will never forget!*
