“ I worked with Gena and found her to be delightful. I retired in 2012 and lost contact with her, but always thought so highly of her. When I was a launch honoree, she had the patience of Job walking me through everything I needed to do. Family is in my prayers for peace.

“ I worked with Gena for many years with the Space Flight Awareness Committee. We had such wonderful times together but my favorite was when I was being honored with the same award that I had helped others to achieve.

Gena and I had so much fun at KSC. I was able to present Gena with the Red Carpet Award that I made just for her. She truly always rolled the red carpet out for each and everyone that she was in contact with. I posted a picture of the fun times we had when I gave it to her. She didn't want the garbage can showing so the photographer made a special picture just for her to make sure it didn't show. We have laughed and cried together over the years and she always was such a special friend to me. I will miss her dearly but not as much as her family. My thoughts and prayers are with each of you during this time of need.

“ To the Family of Mrs. Gena Cox:I worked with Gena on the NASA Space Flight Awareness Program which she loved and which she managed for the MSFC in an exceptional manner. She often spoke affectionately of her family and shared pictures. She loved you all dearly. I was shocked to hear of her passing. My heart aches for you. Peace in difficult moments.. Comfort in times of tears.. Love in every memory. That's what you're wished today and in the days ahead.

“ *I was in band with Gena. I remember her twirling the fire baton and almost burning her leg. She sat behind me in concert season. She played the bass clarinet. I enjoyed hearing her play. Her smile I see when I hear her name, and her laughter is what I still hear in my ear. She was a sweet person, smiling even in adversity. She later attended the same congregation I attended. I got to know her better at that time. I thought of her as a friend even though the years took us far from each other.*
