“ Arrangements pending Joe Snoddy? I know, it was hard Joe. To see 2 children die like that. They were your children though. The only father they ever had and loved.

“ A very troubled person. She was very brave and daring. Always filled with grief - that she could not rid herself of. I loved her for who she was - deep inside. Leeanne was very witty. She loved her family and found it hard to show them. She loved her parents and wanted their attention. Honestly, she was just very confused from childhood on. She is resting with her dear to her - mother.
