“ Goodbye Paul, I will always remember the smile on your face. The way you helped me when I needed work and assisted me during my mothers death. You always had time to help others. So sorry you forgot to help yourself. Some day we will meet again and greet the other with open arms. Your Friend David

“ Goodbye to my dear brother Paul. I can't believe that you are gone. I wish that there had been something that I could've done to help you overcome the illness that finally took you. I will miss you and will always love you with all my heart. Deepest sympathy and sincerest condolences to Pam, Jerra, Jamie, Brodie, Marley and most of all to my parents Bob and Carolyn Burns, who have far more than their share of sorrow in this life.

Daddy, I enjoyed all the years being able to learn everything you wanted to teach us. Being on Job sites, also, years of work experience, I enjoyed every minute of it. Thanks for building us a house, I hate we had to sell it, our land, and house. Lost it all, just because you needed medicine, and possible LIVER transplant, would of been nice. Heard the line was long. Hope I see you someday, and mom never called me about the signing of DNR, so I would of been right up there, of she would have. Sorry Dad that I couldn't help you more than I already did... I had a dream that you faked your death, and moved back to ARIZONA somewhere. Reoccurring dreams too. All about you still being alive somewhere, and calling yourself Jeffrey something...
